Professional Profile

- Currently studying Front-end Development at Greystone College in Canada.
- Completed certifications in Data Analysis (R), AI with Python, Front-end, and Back-end development at KOREA IT Academy.
- Contributed to a web development team project, gaining experience integrating front-end and back-end components, focusing on error identification and resolution during connection processes.
- Strengthened collaboration and leadership skills through teamwork, enhancing project success.

Formal Education and Special Training

- Diploma in Front End Development, Greystone College, Vancouver, Canada (2025-2026)
- Certification, KOREA IT Academy, Seoul, South Korea (2023)
- High School Diploma, Seoul, South Korea (2020-2022)

Relevant Skills

- Java & Spring Boot:Skilled in building scalable backend applications with Spring framework and JPA.
- Frontend (React, Angular, JavaScript):Experienced in creating responsive, user-friendly interfaces using modern frameworks.
- Database (MySQL, Oracle):Proficient in designing and optimizing relational databases and writing efficient queries.
- Tools (Git, AWS, Wix):Comfortable with version control, cloud deployment, and no-code platform implementation.
- Collaboration:Effective in working with designers and clients to deliver seamless user experiences under tight deadlines.

Work History and Accomplishments

Frontend Developer

VCEC – Vancouver, Canada | Feb 2025 – Mar 2025

- Quickly learned and utilized Wix's no-code platform to implement pages within 3 days, despite it being my first experience with no-code.
- Navigated JavaScript limitations by collaborating with the client to adjust structure, ensuring functionality under tight constraints.
- Identified and improved readability issues in the initial design, working with the design team and client to enhance user experience.

Team Mamber

Korea IT Academy – Seoul, South Korea | Jan 2024 – Jan 2024

- Overcame challenges in understanding file storage flow by researching multipartfile and enctype attributes, improving file submission handling.
- Learned how to manage file name conflicts by resetting the file name in the service layer.
- Gained a comprehensive understanding of web service architecture and how the server, database, and client interact.

Team Mamber

Korea IT Academy – Seoul, South Korea | Nov 2023 – Dec 2023

- Gained hands-on experience with the entire web development process, applying various web technologies.
- Developed the project using MyBatis and Spring, understanding the fundamental structure of web development.
- Studied Spring Security while implementing the login feature, learning about user data storage and filter objects.

Barista / All-Rounder

Unni Pastries – Vancouver, Canada | Mar 2025 – Present

- Delivered efficient and friendly service across in-store, phone, and online orders.
- Handled daily prep, inventory, and opening/closing procedures with consistency and attention to detail.
- Created and managed Instagram content (posts, stories, reels), improving brand visibility and community engagement.
- Gained hands-on experience in visual storytelling and user engagement-skills that inform my frontend design choices and content strategy.

Barista

Franchise Cafe – Seoul, South Korea | Dec 2022 – Dec 2024

- Developed the ability to manage multiple orders simultaneously during busy hours, ensuring efficient service and customer satisfaction.
- Collaborated effectively with team members to provide seamless service and address customer needs promptly.
- Gained expertise in handling various customer scenarios, and became skilled at anticipating customer desires without needing explicit communication.

Availability

- Eligible to work full-time under a valid Canadian work permit.
